

L&M Imaging appointed as UK dealers for Heights UK

28th August 2017

L&M Imaging Systems react to printer's frustrations with plate supplier "lock ins"

Hebden Bridge, West Yorkshire – August 28th, 2017 – L&M Imaging Systems announced their appointment as dealers for Heights UK

According to Tim Clough, Managing Director of L&M Imaging, "Over recent years printers have taken advantage of plate processor offers from the major plate manufacturers only to find that the processors supplied only process plates from one manufacturer. Our approach is to provide end users with equipment that ensures they can change suppliers."

Elinor Robinson, Sales Director of Heights UK said "Having spent many years manufacturing bespoke processors for major suppliers we are excited that L&M Imaging will be working as the UK dealer taking our own product mix to UK printers. We feel that since L&M Imaging are primarily a service company they will be the perfect partners"

L&M Imaging also supply Thermal, Violet and Conventional plates from as little as £4.25 /m² without having to sign up long term consumable contracts.

About L&M Imaging Systems

L&M Imaging Systems Ltd. is leading supplier of imaging technologies, service and supplies for graphic and industrial applications. L&M Imaging can trace its history back more than 125 years to the Linotype & Machinery Company based in Altrincham, Cheshire. The Imaging Systems division became an independent limited company in 1991.

For over 25 years L&M Imaging have successfully applied a broad range of optical, imaging, laser, and digital-electronic technologies to meet the business needs of its customers. L&M Imaging is dedicated to maintaining the highest standards of service and support to its UK and international customers.

About Heights UK

HEIGHTS was established in 1974 as an engineering design company and, in the years following, success came in manufacturing a wide range of innovative equipment, primarily in the graphic arts market.

By the mid-nineties HEIGHTS had become an internationally recognised supplier of premium quality graphic arts equipment, and in 1999 was acquired by Global Graphics SA, returning to private ownership in 2002 when it was re-acquired by its previous owners and founders.

With manufacturing operations in the UK and the USA, HEIGHTS continues to be recognised as a world-leading supplier of graphic arts products, and is dedicated to providing innovative equipment which meets the ever-changing requirements of this marketplace.

Many printing plate and chemistry manufacturers recognise the engineering excellence, durability and longevity of HEIGHTS equipment by marketing it under their own brand. Similarly, other customers purchasing HEIGHTS branded equipment do so because of the added value and competitive edge it brings.

L&M Imaging Systems --- A wealth of imaging experience.
