

KODAK SONORA XP

PROCESS FREE PLATES FROM L&M IMAGING SYSTEMS

Where profits and print quality are sustainable

Do what's right for the environment ... and for your business

You no longer have to make a choice between the environment and profitability when selecting a plate. KODAK SONORA XP Process Free Plates eliminate processing and chemistry from plate making, and they deliver the quality, productivity, and print capabilities your business needs to be successful.

Free yourself from processors and chemistry forever

Imagine removing the burdens of maintaining and running a processor while achieving better process control from eliminating all processing variables. SONORA XP Plates use Kodak's press ready technology to make process free plate making a reality. Just image, mount, and print.

Enhance your productivity through streamlined plate making

Shorten plate making cycles by streamlining your production. With SONORA XP Plates, fast imaging speeds combined with the additional time and consistency gained from not processing plates deliver the enhanced productivity you need to increase efficiency and reduce the risk of press downtime.

Free to be more sustainable

Whether your goal is to be compliant or to position yourself as an environmental leader, KODAK SONORA XP Plates can help both in prepress and in the pressroom. SONORA XP Plates not only enable you to remove chemistry, water, energy and waste from plate making, they reduce waste and downtime in the pressroom because fewer plate remakes are needed due to plate processing variability.

Free to be the printer you want to be

SONORA XP Plates deliver both reductions in operating costs and environmental impact while letting you differentiate your print. With mainstream productivity, quality and run length capability, the only things you have to lose with SONORA XP Plates are your processor and chemistry.

Example Pricing

B2 £3.20/plate
SM52 £1.63/plate
GTO £1.38/plate
