

L&M Imaging Systems & Roosen BPL

2nd January 2020

L&M Imaging Systems – Handling Solutions

Haelen, Holland – L&M Imaging Systems announced as the exclusive UK dealers for Roosen BPL materials handling solutions.

According to Tim Clough, Managing Director of L&M Imaging, “Roosen BPL provides L&M Imaging with an additional product line to offer our customers across all markets. Having recently visited the factory, I was very impressed with the innovation and build quality. Roosen are able to manufacture both off the shelf and customised solutions for any handling needs, with installations at demanding clients such as ICI Paints and Pirelli tyres in the UK we anticipate many more installations.

John Kuijper’s “We chose L&M Imaging to represent us in the UK for their commitment to customer service. Having initially approached us regarding a specific project, we can see a great future working together with L&M Imaging in the UK.”

About L&M Imaging Systems

L&M Imaging Systems Ltd. is a leading supplier of imaging technologies, service and supplies for a broad spectrum of industrial applications. L&M Imaging can trace its history back 125 years to the Linotype & Machinery Company based in Altrincham, Cheshire. The Imaging Systems division became an independent limited company in 1991.

Over the last 25 years L&M Imaging have successfully integrated a wide range of optical, imaging, laser, and digital-electronic technologies to meet the production needs of its customers. L&M Imaging is dedicated to maintaining the highest standards of service and support to its UK and international customers. www.lmimaging.co.uk

About Roosen BPL

Roosen BPL is one of the 11 companies of [Roosen Industries](#).

Roosen Industries is an internationally oriented group with companies in the Netherlands, Belgium and India, specialized in a wide range of metalworking and mechatronics assembly.

The entire group is NEN-EN-ISO 9001: 2015 certified.

Roosen BPL has been developing and manufacturing high-quality handling systems for more than 30 years. The plastics industry, metal processing, chemicals, food industry, logistics, packaging and automotive industry use their balancers worldwide.

Roosen BPL deliver the right handling system for every application – always comfortable, safe (including CE declaration) and effective. They design and manufacture each balancer on the basis of an extensive inventory and analysis of local conditions, products and working methods.

In recent years they have successfully realized many special machine building projects.

In addition to customization, they also supply standard solutions from their EASY series, namely: plate, roll and axle handling and the pallet turner and inverter. www.bplhandling.com
